

COMPACT CONCEALED HINGES

ABS Compact Concealed Hinges

1 piece design, 2-cam & 3-cam concealed face frame hinges

Nickel Plated available with & without dowels
Self Closing & Soft Close styles available

1 piece design, 4 & 6-way adjustable short arm concealed face frame hinges

Nickel Plated available with & without dowels
Self Closing & Soft Close styles available

KEY FEATURES

- Best for traditional American face frame cabinets, maximizing internal cabinet space & simple installation
- Concealed design, hidden from view when the door is closed providing a modern clean look
- One-piece construction combines the hinge & mounting plate into a single unit providing durability and quick installation
- Fully adjustable (height, depth & side to side)
- 35mm cup ensuring precise, quiet and an easy installed cabinet (works with most American hinge boring machines)
- Typically offers a 105-110 degree of opening

ALSO AVAILABLE in SOFT CLOSE
