RV-1 SLIDER

NEW & PATENTED!

U.S. PATENT NO. 10,206,504

The NEW RV-1 Locking Slide is designed and intended to be used in the assembly of drawers specifically for the RV industry.

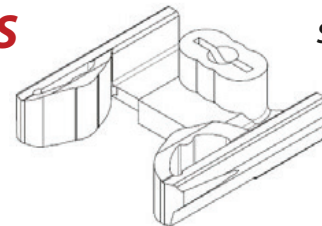

A highly durable plastic stop was added to the top of each slide which acts as a lock and stop when the drawer and cabinet mate during assembly.

Avoid the cost and labor of annoying roller catches.
The ABS RV-1 Slide incorporates the Detent feature ALL-IN-ONE!

RV-1 LOCKING SLIDE FEATURES

- 35MM PROFILE
- MADE FROM 1.2MM THICK STEEL
- ONE POINT OF DETENT
- 17-20 LBS OF DETENT FORCE PER PAIR
- UP TO 75 LBS OF LOAD CAPACITY PER PAIR
- 50,000 CYCLES TESTED AND APPROVED
- SELF-ALIGNING TAB TO FIT UP TO 3/4" FACE FRAMES

Stop feature is built right into the slide!
